C. SPRINGS

C.0. POJASNILA K PREGLEDNICAM

V poglavju o monitoringu izvirov (C) so poleg Pojasnil k preglednicam (C.0.) s predstavljivijo merjenih parametrov, podani še tri podpoglavlja s preglednicami.

V letu 2003 so v programu monitoringa izvirov delovale postaje na izvirih Divje jezero, Globočec in Kamniška Bistrica. V preglednicah podajamo dnevne vrednosti vodostajev (C.1.), temperatur (C.2.) in specifične električne prevodnosti (C.3.) ter njihove diagrame.

Razlage pojmov in okrajšav v preglednicah:

- **Št.** – tekoča številka izvira;
- **Tip** – opremljenost postaje (**P** – podatkovni zapisovalnik);
- **Postaja** – ime postaje za izvir oz. lokacija;
- **Izvir** – ime izvira;
- **Kota »0«** – nadmorska višina nulte točke, od koder se meri višina vodnega stolpca oz. vodostaj;
- **X in Y** – Gauss-Kruegerjeve koordinate položaja postaje na topografski karti merila 1:25000;
- **Začetek opazovanj** – začetno leto merjenj podatkov;
- **Stran** – stran, na kateri so za postajo izvira navedeni podatki o vodostajih (**H**), temperaturi (**T**) in specifični električni prevodnosti (**EP**);
- ---- – ni podatka;
- **H_{nk}** – najnižji mesečni oz. letni vodostaj;
- **H_s** – srednje mesečni oz. letni vodostaj;
- **H_{vk}** – najvišji mesečni oz. letni vodostaj;
- **T_{nk}** – najnižja mesečna oz. letna temperatura;
- **T_s** – srednja mesečna oz. letna temepratura;
- **T_{vk}** – najvišja mesečna oz. letna temperatura;
- **EP_{nk}** – najnižja mesečna oz. letna vrednost specifične električne prevodnosti;
- **EP_s** – srednje mesečna oz. letna vrednost specifične električne prevodnosti;
- **EP_{vk}** – najvišja mesečna oz. letna vrednost specifične električne prevodnosti.

C.0. EXPLANATION TO THE TABLES

In the chapter on the monitoring of springs (C) three sections containing tables were added to the Explanation to the Tables (C.0.) including a presentation of measured parameters.

Three gauging stations on locations Divje jezero, Globočec and Kamniška Bistrica were in operation in the year 2003. Data on daily water levels are listed in C.1., daily values of temperatures in C.2., and values of specific electrical conductivity are listed in the table in C.3. along with graphs.

Explanation of terms and abbreviations used in the tables:

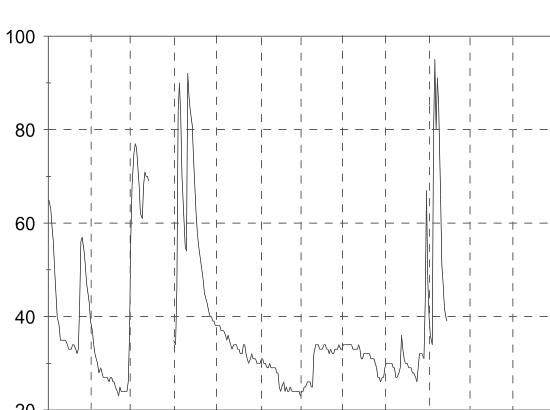

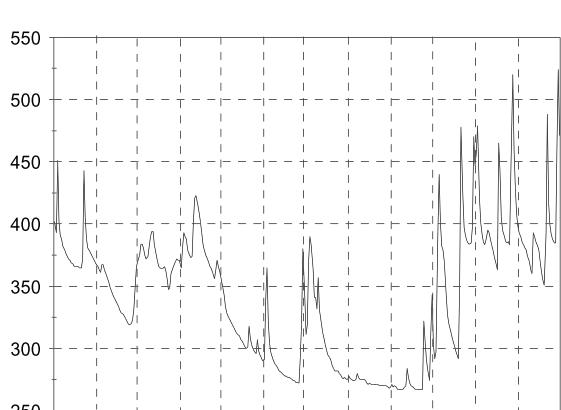

- **Št. (No.)** — current number of the spring;
- **Tip (Type)** — equipment at the station (**P** – data logger);
- **Postaja (Station)** — name of the station for a spring or location;
- **Izvir** — the name of the spring;
- **Kota »»0««** (datum point) — altitude of point zero used as a reference for measuring water level;
- **X in Y** — Gauss-Krueger co-ordinates of the station's position on the topographical map, scale 1:25000;
- **Začetek opazovanj** (Beginning of observations) — the first year of measuring data;
- **Stran (Page)** — the page listing the data on water levels (**H**), temperature (**T**) and specific electrical conductivity (**EP**));
 - ---- — no data;
 - **Hnk** — lowest monthly and annual water levels;
 - **Hs** — mean monthly and annual water levels;
 - **Hvk** — highest monthly and annual water levels;
 - **Tnk** — lowest monthly and annual temperatures;
 - **Ts** — mean monthly and annual temperatures;
 - **Tvk** — highest monthly and annual temperatures;
 - **Epnk** — lowest monthly and annual values of the specific electrical conductivity;
 - **Eps** — mean monthly and annual values of the specific electrical conductivity;
 - **Epvk** — highest monthly and annual values of the specific electrical conductivity.
